Imagination Studio

A complete suite to create and share your digital life

Imagination Studio™ bundles four powerful Sony® applications together to create a total multimedia experience. Edit video in stunning HD or stereoscopic 3D, create original music, and enhance multichannel audio. It's easier than ever to take control of your own creativity and weave your ideas into high-quality movies that you can upload to Pixelcast™—a new Sony site for sharing and collaboration*—and YouTube™, or burn to a DVD or Blu-ray Disc™!

Imagination Studio is perfect for:

- Video and Multimedia producers
- Musicians and music producers from beginners to pros
- DJs and remix artists
- Singer-songwriters and bands
- Educators, trainers, and presenters
- Podcast and streaming media creators

Minimum System Requirements:

- Microsoft® Windows Vista® 32-bit or 64-bit SP2 or Windows 7 32-bit or 64-bit
- 2 GHz processor (multicore or multiprocessor CPU recommended for HD or stereoscopic 3D)
- 500 MB hard-disk space for program installation
- 2 GB RAM (4 GB recommended)
- IEEE-1394DV card (for DV capture and print-to-tape)
- USB 2.0 connection (for importing from AVCHD, XDCAM EX, NXCAM, or DVD camcorders)
- 512 MB GPU memory
- Windows-compatible sound card
- DVD-ROM drive (for installation from a DVD only)
- Supported CD-recordable drive (for CD burning only)
- Supported DVD-R/-RW/+R/+RW (for DVD burning only)
- Supported BD-R/-RE drive (for Blu-ray Disc™ burning only)
- Microsoft .NET Framework 3.5 SP1 (included on application disc)
- Apple® QuickTime® 7.1.6 or later for reading and writing QuickTime files
- Internet Connection (for Gracenote MusicID Service, Pixelcast™, and YouTube™)

You must provide your registration information to Sony Creative Software Inc., a US company, in order to activate the software. Product requires online registration.
